How to get the Facebook Profile link for registering at Legacy International

Facebook Profile

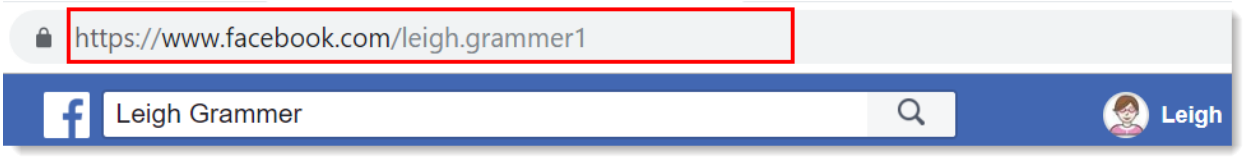

To get the unique URL for your personal Facebook profile:

From a Desktop or Laptop View

1. Log into Facebook, then click on your name in the upper right part of the screen.

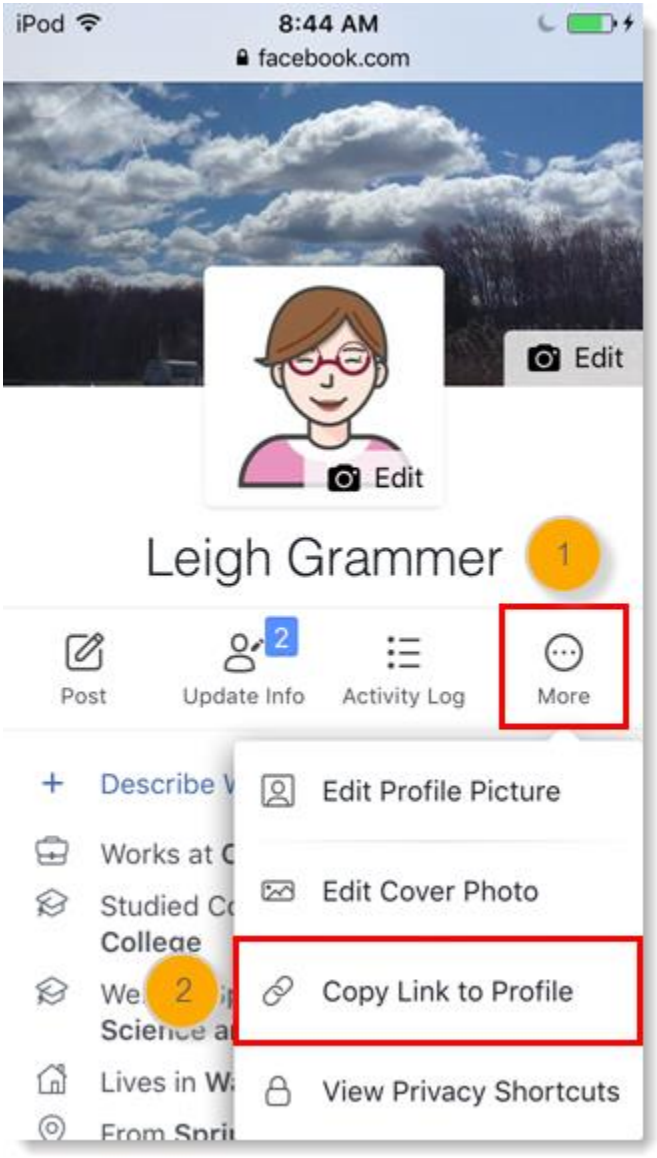

2. Copy the Facebook Profile URL in the address bar of your browser.

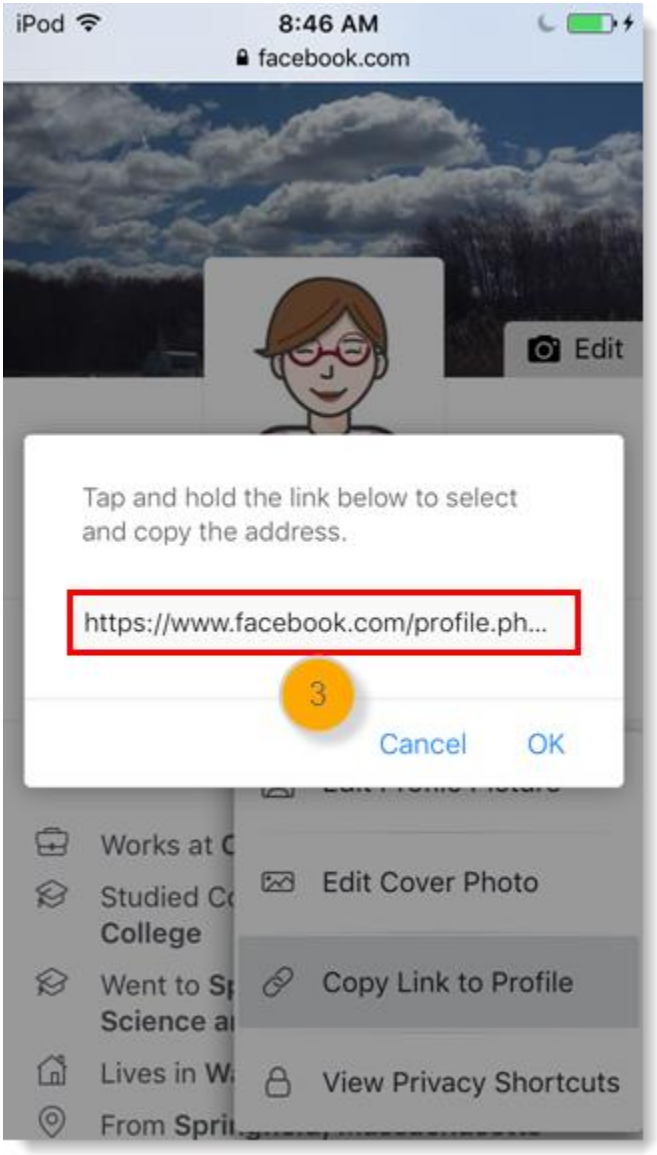

From a Mobile Device View

Important: If you're using an iOS device, we recommend opening Facebook using a web browser on your mobile device instead of using the Facebook app. Android devices generally show the link options in the app, but iOS devices do not.

1. Open Facebook on your mobile device, navigate to the profile page, and click **More**.
2. Select **Copy Link to Profile**.

3. Copy the link.

To see the URL, you must paste it somewhere or view your clipboard.
